

Our Science project this half term is...

Forces

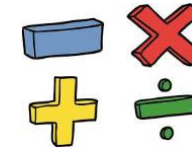

We will be learning about the properties of a range of materials and how to describe them, as well as investigating how they react to magnets. We will also explore changes in state and ask whether these are reversible?

Our Humanities project this half term is...

Magnificent Maps

We will be learning about what maps can tell us including OS symbols, 4 figure and 6 figure grid references and contouring. Children will be using Atlases to compare the physical geography of different continents and studying many different maps.

Year 5/6
First Half
Spring Term 2024

Our English Texts and Writing Outcomes...

We are basing our learning this half-term on the epic poem Beowulf. Pupils will learn how to write an effective Quest story, concentrating on developing characters. We will also write a news report on the events of Beowulf's encounter with monsters.

Home Learning activities...

**Reading – everyday and
record in diaries**

TTRS 5 minutes daily

Spelling Shed

In Maths, we are covering...

Fractions and Position and Movement

We will be exploring fractions in greater depth this half-term as well as looking at co-ordinates, reflection and translation of shapes on a grid.

Other learning...

We also have 2 P.E. lessons each week as well as Computing. Children will also be learning music and French language skills once a week.

Our Art project this half term is...

Chinese Landscape Painting

Pupils will develop their appreciation of this specific style and further explore brush techniques.
